What our Loyal Customers are saying...

"I had a quote for replacing a timing belt at another establishment and called Ambassador. Not only was I able to get the timing belt replaced but they put in a new headliner and I got both for the same price as just the timing belt at the other repair shop. The work was done quickly and professionally. Van was great to work with". - Patty

"We finally found a shop and service advisor we can trust. We had a truck, car and motorhome worked on here. Mostly mechanical but in one case, body work. Every time, I was satisfied that I got reliable, professional work done at a fair price. Most of all I can trust, Van the service writer, to be honest with me about what work needs or doesn't need to be done". - John
